

● B.TECH CSE STUDENT · LEARNING AND BUILDING WITH PURPOSE

Turning curiosity into *meaningful* technology.

I'm Ramya Cheera, a third-year B.Tech Computer Science and Engineering student building a strong foundation in programming, web development, and software engineering.

01 — ABOUT

A LITTLE CONTEXT

A student with
curiosity, discipline,
and room to *grow*.

I'm Ramya Cheera, currently in my third year of B.Tech in Computer Science and Engineering.

My academic journey is helping me strengthen my programming, problem-solving, and software development fundamentals. I'm building my skills step by step through coursework, practice, and projects, with a focus on learning clearly and creating dependable solutions.

B.Tech

DEGREE

03

CURRENT YEAR

CSE

SPECIALIZATION

“Keep learning. Keep building. Keep improving.”

Foundations for *good ideas.*

I'm growing one concept at a time, combining classroom learning with practical experimentation and a habit of asking why before I start writing code.

</> ALWAYS LEARNING

01 Programming fundamentals

Building a strong foundation in logic, algorithms, and structured programming.

PROBLEM SOLVING

ALGORITHMS

DATA STRUCTURES

02 Web development

Exploring how HTML, CSS, and JavaScript work together to create useful interfaces.

HTML

CSS

JAVASCRIPT

03 Software engineering

03

Software engineering

Learning to approach software with clarity, testing, maintainability, and care.

CLEAN CODE

DEBUGGING

VERSION CONTROL

04

Continuous learning

Growing through coursework, hands-on practice, and the process of building projects.

CURIOSITY

ADAPTABILITY

PRACTICE
